Semjase

35. At the present time we are the most highly developed life forms that travel this earth from outside your world and are also stationed here.

Semjase

36. Although there are other life forms that penetrate your earth space, fly in and partly also have their stations here, we correspond to the highest level of evolution of all.

Semjase

37. The second most developed form of life after us lies little more than 1840 years of total evolution behind us.

Semjase

38. All present extraterrestrial life forms, which currently live in the earthly space, we are therefore a little more than 1840 earth years ahead in the total evolutionary state.

Semjase

43. This is especially true of the fraudulent allegations of various fraudsters and charlatans who made false worldwide statements regarding alleged contacts with people on your neighbouring planet Venus.

Semjase

44. In not too many years will science prove to you that no human life forms exist on this planet in the form described by certain charlatans and deceivers; neither in spiritual nor in material form.

### // Plejaren Contact Report //

- Plejaren are the most highly evolved alien life form visiting our planet, who come from the Plejaren Planets (in another space-time) and officially resided here until February 3, 1995 (Contact Report 251). **They are currently (2021) still contacting Billy Meier.**
- Until then, the second highly evolved alien life form who visited our planet was 1,840 years behind Plejaren in terms of their overall evolution.

- Plejarens are not "teachers", "missionaries" or "pioneers".

'Billy' Eduard Albert Meier

Since our last meeting I have occupied myself intensively and much with the so-called UFO literature.

'Billy' Eduard Albert Meier

In doing so, I came across the suggestion that you human beings from the stars, if I may put it that way, are always described as supernatural, supernatural beautiful and as protectors of humanity on Earth, almost as all-knowing and as teachers, etc., and that you should therefore live practically in spiritual and conscious perfection.

'Billy' Eduard Albert Meier

But my intellect and my impression convey something completely different to me in this respect, and I cannot get over the fact that all this can only be lies.

'Billy' Eduard Albert Meier

Lies that probably originate from sick brains or from brains that are not free and brand fantasy pictures as reality, because the originators of thoughts cannot cope with real reality and therefore escape into a fantastic pseudo-world.

Semjase

7. You are preoccupied with very deep thoughts, and they correspond to the absolute truth.

Semjase

8. It is really as you say:

'Billy' Eduard Albert Meier

The reality seems to be too hard for them, so they flee into fantasies, because they hope for help in these.

'Billy' Eduard Albert Meier

And since these human beings never want to bear the responsibility for anything and everything themselves because they are perhaps too unknowing or too cowardly, they simply pass it on to something that is supposed to stand above them and direct their destinies.

'Billy' Eduard Albert Meier

They then call this something God and religion.

'Billy' Eduard Albert Meier

A simple buffer and ram block, into which one can pound everything; a fantasy picture, onto which one rolls all one's own responsibility.

- Plejarens are not "teachers", "missionaries" or "pioneers".

Semjase

9. The Earth-humans are not able to bear and recognise their responsibility themselves, although they should do so.

Semjase

10. So they roll everything off and onto something that they put above themselves in their imagination; things that they simply call religion or God, that are supposed to relieve them of the responsibility.

Semjase

11. If deceivers label and describe us as you said just now, it is nothing more than an infamous lie, originating from the brains of consciously poor human beings who imagine a better life in their fantasy, and because they themselves cannot achieve it, at least not yet in this life, they simply attribute it to us and make us out to be something perfect.

Semjase

12. But we, too, are still far away from this stage and must continually develop ourselves further.

Semjase

13. We are not the so-called above-human or superhuman beings, as the Earth-humans like to call us in their unknowledge and in their imaginations.

Semjase

14. We are also no teachers, missionaries or pioneers.

Semjase

15. We only have the dutiful task of preserving the developing as well as already existing human life throughout the cosmic space.

Semjase

16. This means that we strive to keep order and watch over certain life.

- They come in contact with those human races who have been prepared (to accept the Spiritual Teachings and Creational Laws) on other worlds, and slowly let them know that they are not the only living thinking beings in the universe.

- They are neither spiritual mentors, nor missionaries or so-called "prophets".

Semjase

17. Here and there we approach the inhabitants of different worlds, if our directives allow us to do so, choose individuals from among them and provide them with explanations; this however only then when a race develops higher and slowly becomes thinking.

Semjase

18. We then slowly prepare them for the need to become familiar with the thought of not being the only thinking beings in the universe.

// Plejaren Contact Report //

- They are neither perfect human race, nor super human being that some stupid Earthlings think.

◆ Version of English translation: 08:26, 30 November 2019 Zutt

Semjase

2. Already for decades various human beings of Earth and entire groups have been pressing us partly consciously, partly unconsciously into spheres into which we do not fit in any form; spheres in which we do not want to be at home either.

Semjase

3. Often only for the sake of the desire to show off and for the sake of pure profit are we ranked higher than we are in reality.

Semjase

4. But we are all only human beings, like all human creatures.

Semjase

5. According to your terms, we may well live in a state of superior technology and of great spiritual and consciousness-based progress, but not in a boastfulness and overwhelmingness, which the majority of the human beings on Earth impute to us.

Semjase

6. We are neither the guardians of the Earth-humans nor any god-sent angels or the like.

Semjase

7. Various ego-addicted persons and groups led into the unreal by them claim that we were the guardians of the Earth and its human beings, and that we would direct their destinies.

Semjase

8. However, this does not correspond to the truth, because we are only carrying out a self-obligated task, which in no way has anything to do with a surveillance and a directing of the actual destinies of the Earth-humans.

Semjase

9. It is therefore wrong to portray us as over-earthly ambassadors and guardians.

Semjase

10. If we were ambassadors and guardians in the sense as it is claimed about us, then we would land out in plain view and direct the destinies of the human beings of Earth in full recognisability.

Semjase

11. We are not what is imputed on us; even though we are spiritually and consciousness-based about 25 million years farther progressed and technically almost 3 1/2 millennia ahead of the Earth-humans.

- Plejaren are neither the guardians of mankind, nor the "God-sent Angels", or something like that.

Semjase

12. But it is in the sense of all those Earth-humans who are themselves caught in a religious belief to make us become something godly.

Semjase

13. In so doing, they degrade themselves and all their fellow human beings to underdeveloped human creatures.

Semjase

14. Through erroneous or very consciously invented contact reports, which are devoid of any truth, thus the impression arises that the human being of Earth would do nothing but make mistakes and in no way live in the right way.

Semjase

15. However, in truth this is not the case, because the human being of Earth follows his/her evolution-based path.

// Plejaren Contact Report //

Although at that time, they have been 25,000,000 years ahead of us in terms of spiritual and conscious evolution, and 3,500 years in terms of technology, but Plejaren are definitely not so-called "Gods" that described by religious people on the Earth.
